U.S. SEED EXPORTS AT RECORD \$75.7 MILLION IN 1972-73

Exports of U.S. seeds in crop year 1972-73 totaled a record \$75.7 million, compared with the previous high of \$63.8 million in 1970-71.

Grass and legume seed exports of 103.3 million pounds were slightly higher than the previous record 101.7 million. Japan, Canada, and Mexico were the principal markets for these seeds, receiving half of total sales.

Seed corn exports of 59.3 million pounds showed the largest increase, with Mexico and Canada as leading markets. Grain sorghum seed shipments, two-

thirds of which went to Mexico, attained a record 45.0 million pounds, valued at \$6.0 million.

Bean, pea, flower, and "other" seed exports showed substantial increases, while vegetable seeds were down slightly in quantity but up by 4 percent in value over the previous year.

By region, Europe was the best market for U.S. seeds, with sales amounting to \$28.0 million. Exports to the EC-6 amounted to \$17.7 million, with Italy the leading European market. Sales to North American countries amounted to \$27.5 million, with 95 percent of these exports going to Canada and Mexico.
